San Francisco State University

San Francisco State University is a member of the CSU system and serves a diverse student body of 30,000 undergraduate and graduate students. The University seeks to promote appreciation of scholarship, freedom and, human diversity through excellence in instruction and intellectual accomplishment. San Francisco State University faculty members are expected to be effective teachers and demonstrate professional achievement and growth through research, scholarship, and/or creative work. Our goal is to attract a world-class and diverse faculty committed to building an equitable and inclusive educational environment.

Below is a listing of current tenure-track positions within the College of Science and Engineering (CoSE). Our college is home to more than 400 faculty and staff members, including 182 tenured and tenure-track faculty and more than 6,000 students in eight departments and one school. CoSE also provides foundational education to students crossing the entirety of San Francisco State University. CoSE is committed to offering students an academic experience of “thinking, learning and doing.” The best way to provide this experience is through involving students in research and the solution of real world problems. Thus, teaching and research are mutually supportive and one cannot excel without the other. Faculty and students conduct research together in topics spanning a broad range of theoretical and applied topics on projects supported by a variety of funding sources, including foundations, companies, state and local governments and a broad range of federal funding agencies.

CoSE is committed to serve a student population that reflects the diversity of the region. The College supports a number of programs designed to encourage and support all students, both domestic and international, to pursue careers in science and engineering.

San Francisco State University is an Equal Opportunity/ Affirmative Action Employer with a strong commitment to diversity. All qualified applicants will be considered without regard to race, color, sex, religion, national origin, disability, protected veteran status, or other legally protected category. We strongly encourage the application of individuals from historically underrepresented groups.

A background check (including a criminal records check) must be completed satisfactorily before any employment with the CSU.
Department of Biology
The Department of Biology invites applicants for two tenure-track Faculty Positions in Microbiology and Evolutionary Biology. We seek colleagues whose teaching and research interests include contemporary molecular approaches to investigate a variety of topics including pathogenesis, host-microbe interactions, virology, immunology, virome/microbiome or proteomics, evolutionary processes in natural populations (especially non-model organisms). For additional information, please visit http://biology.sfsu.edu/.

Department of Chemistry & Biochemistry
The Department of Chemistry & Biochemistry is looking to hire a dynamic colleague in the area of organic chemistry. We seek a colleague whose research focus is in organic chemistry and whose teaching interests include organic chemistry and general chemistry. For more information, please see the complete job description at http://chemistry.sfsu.edu/0home/0layout.php.

Department of Computer Science
The Department of Computer Science has two tenure-track openings at the Assistant/Associate Professor level, in areas related to Database/Data Analytics/Big Data, CS Education. Our faculty balance research and teaching, are active in industry- and government-funded collaborations and devoted to promoting inclusivity in computing. For more information please visit https://academicjobsonline.org/ajo/jobs/12116 To answer any questions please contact: csgrad@sfsu.edu

School of Engineering
School of Engineering is looking to hire Assistant or Associate Professor in Civil Engineering. The School seeks an individual with a background in Transportation Engineering with perhaps a secondary interest in Construction Management or Geotechnical Engineering. Visit https://academicjobsonline.org/ajo/jobs/12193 for more information.

Department of Mathematics
The Department of Mathematics has two tenure-track positions: Assistant or Associate Professor in Applied Mathematics and Mathematics Education. We seek colleagues whose teaching and research interests include computational and numerical methods in all fields of applied mathematics such as applied harmonic analysis, computational biology, dynamical systems, partial differential equations, and optimization, developing effective pedagogies for teaching college level mathematics in classrooms. Visit http://math.sfsu.edu/tenure_hiring.php for a detailed job announcement and job description as well as for application instructions.

Physics & Astronomy
The Department of Physics & Astronomy invites applications for a tenure-track Assistant Professor in Observational Astronomy. We seek a colleague who will create and foster an active program in Observational Astronomy, and who is enthusiastic about mentoring students and involving them in ongoing research activities, including graduate students working on M.S. theses. For more information, please visit http://www.physics.sfsu.edu/

Earth & Climate Sciences
The Department of Earth & Climate Sciences offers an exciting opportunity for a tenure-track Assistant Professor position in Environmental Hydrology. We seek a colleague whose research and teaching interests include the interactions between hydrology, climate, and earth and environmental systems, broadly construed. For more information, please visit http://tornado.sfsu.edu/
