Postdoctoral Research Fellow at the Division of Endocrinology, Boston Children’s Hospital-Harvard Medical School

Description
The Miao lab at Boston Children’s Hospital is recruiting a postdoctoral fellow to study the cellular, molecular, and genetic mechanisms underlying insulin resistance-associated metabolic disease. The Miao lab values mentorship and collegiality, as well as dedication and creativity. Several exciting projects are available depending on the experience of the candidate.

Requirements
A successful candidate must have (or soon receive) a PhD degree or equivalent in a relevant area of biomedical sciences and a strong record of productivity. We are particularly interested in candidates with expertise in molecular and cellular biology and in vivo mouse models of disease. Prior experience in metabolism, endocrinology, and metabolic diseases is a plus. She/he must also be capable of working independently in a teamwork environment and have excellent interpersonal, communication, and organizational skills.

To Apply
Please submit a brief statement of research interests, a CV, a cover letter, and contact information for three references to Dr. Ji Miao (ji.miao@childrens.harvard.edu).

About Boston Children’s Hospital
Boston Children’s Hospital is in the center of the Longwood Medical Area of Boston and is affiliated with Harvard Medical School. With over 6,000 extremely talented MDs or PhDs and the best technologies in the Harvard Medical School-Longwood Medical Area, we conduct research that advances treatment and provide comprehensive care to patients. These resources provide state-of-the-art facilities, a highly collaborative environment, and an unparalleled opportunity for a motivated postdoc to gain outstanding intellectual and scientific experience.

Boston Children’s Hospital is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, sexual orientation, gender identity, national origin, ancestry, age, veteran status, disability unrelated to job requirements, genetic information, military service, or other protected status.
