

# DANA-FARBER/HARVARD CANCER CENTER CURE STUDENT RESEARCH PROGRAM

Mentor a student and foster the next generation  
of scientists

## Overview

Full-time summer research training initiative for **high school and college students** from **underrepresented and disadvantaged** backgrounds providing comprehensive hands-on **mentored research experiences** and guidance in academic and **professional development**.

## WHY MENTOR?

### ✓ MAKE A DIFFERENCE

Positive mentoring relationships are critical for retaining students in the STEM pathway.

### ✓ TURNING KNOWLEDGE INTO PRACTICE

Help student's apply their textbook knowledge to real world problems.

### ✓ DEVELOP YOUR CAREER

An opportunity to invest in and demonstrate your own teaching and mentorship practice.

## EXPECTATIONS

- **Commit to mentoring a student**
  - High School - 8 weeks
  - College - 12 weeks
  - Dates: May 28 (college) or June 17 (high school) to August 9
- **Provide an appropriate research project, space, resources, and daily mentorship**
- **Oversee student progress on:**
  - Learning Plan
  - Abstract
  - Scientific Presentation
  - Literature Review
- **Attend mandatory mentor orientation and participate in mid-summer check-ins**
